**LOCAL COMPUTER SERVICES COMPANY OFFERS  
COMPUTERS FREE TO STUDENTS**

WHITEHOUSE STATION, NJ – AppDev, LLC today announced the launch of their Computers for Students project which enables students in Grades 6-12 to use a pre-owned, refurbished personal computer for free.

As used computers are donated to AppDev, LLC, specifically for the Computers for Students program, they are then refurbished before being given to a qualifying student for use in completing school assignments at home.

Once the student finishes the 12<sup>th</sup> grade, the computer is returned to AppDev, LLC, again refurbished and assigned to another student.

The company also offers rebuilt pre-owned computers for the cost of repair, generally under \$200, specifically for the Computers for Students project.

Any person or business that wishes to donate a working or non-working PC or MAC, unneeded computer software, such as Microsoft Office, to the project can contact the company at 908-534-0075. Working monitors, keyboards, mice, printers, and printer cables are also accepted for the project.

Any school that is interested in participating in the program can contact the company at 908-534-0075.

Students in need of a computer to complete their school assignments are encouraged to have their parents contact school officials.

AppDev, LLC has been providing computer software and hardware services to area businesses and residents since 1991.
