### 7100 LONG-RANGE FACILITIES PLANNING

The Board of Education recognizes that sound planning based on accurate information is essential to the provision of suitable educational facilities. In order to ensure that future district construction is planned on the basis of need, the Board, in accordance with N.J.A.C. 6A:26-2.1 et seq., will maintain and submit a Long-Range Facilities Plan (LRFP) to the New Jersey Department of Education. Except as provided in N.J.A.C. 6A:26-3.16, no school facilities project will be considered or approved unless the district's LRFP has been submitted to and approved by the Commissioner of Education.

The district may submit an amendment to an approved LRFP for review and approval by the Commissioner of Education at any time whenever it seeks to undertake a capital project that is inconsistent with the approved LRFP then in effect.

The Board shall review all facilities annually to determine if any of them are substandard pursuant to 6A:26-8.1 et seq. All substandard facilities must be initially approved by the County Superintendent of Schools. Such approvals are given for a maximum of two consecutive years, unless inspected by the New Jersey Department of Education, Division of Finance. The Board shall not continue their use without the express written consent of the County Superintendent of Schools. No substandard educational facility will be approved unless inspected by the Division of Facilities and Transportation in the Department of Education to ensure:

1. The facilities meet health, safety and educational adequacy standards for temporary, substandard facilities, as specified in N.J.A.C. 6A:26;
2. A plan has been developed by the district and approved by the County Superintendent of Schools to upgrade the facilities to standard, fully approved conditions.

The County Superintendent will annually monitor the district's plans to upgrade facilities to fully approved status. The district will provide funds in the next immediate annual budget to correct the deficiencies about which the district is notified by the County Superintendent on or before October 1 annually. Failure to budget for the correction of deficiencies and to implement the corrections by the next September 1 following the October 1 notice will result in the Division of Facilities and Transportation ordering that the substandard facility be abandoned immediately.

### 7101 EDUCATIONAL ADEQUACY OF CAPITAL PROJECTS

Capital projects that affect any of the criteria for educational adequacy must be reviewed and approved by the Division of Facilities and Transportation. The criteria are the number, configuration, size, location or use of educational spaces within a school facility. The review for educational adequacy will take into consideration the suitability of the number, configuration, size, location, and use of educational spaces; built-in furniture and equipment; and provisions for the disabled.

Projects requiring approval for educational adequacy, as defined in N.J.A.C. 6A:26-5.1 are: new school facilities including pre-fabricated facilities; additions to existing school facilities; alterations to the total number, dimension in volume and/or area, configuration or location of educational spaces or the number of any one kind of educational space; change-of-use that requires certain alterations, or that requires mechanical or electrical changes pursuant to N.J.A.C. 5:23 or these regulations; installation of temporary facilities; and any site or school facility change or alteration for the purpose of making the site and school barrier free and accessible to disabled persons pursuant to N.J.A.C. 5:23 and Section 504 of the Federal Rehabilitation Act of 1973, 29 U.S.C. §794 and the Americans with Disabilities Act, 42 U.S.C. §12101 et seq.

New Jersey Economic Development Authority and non-authority school facilities projects, along with other capital projects, are subject to educational adequacy reviews pursuant to N.J.A.C. 6A:26-5.1(b). The district will submit any plan to change of use of instructional space that is not a capital project to the County Superintendent of Schools for approval.

Educational specifications for educational adequacy reviews will be prepared and submitted in accordance with N.J.A.C. 6A:26-5.2. Educational specifications will be prepared in writing describing in detail the educational program activities and requirements for each space proposed in the capital project, and will refer to the Core Curriculum Content Standards wherever appropriate. The educational specifications will include an itemized list of furniture, equipment, and support spaces required to conduct the educational program specified for each space will be included, together with their estimated areas in square feet, as well as an estimate of the total room area required for each space. The educational specifications will also include specific technical and environmental criteria, adjacencies and other requirements for the educational program will be noted and a building space program that indicates the number and area in square feet of each instructional, specialized instructional, administrative and support space in each existing or proposed building included in the capital project.

Educational Adequacy of Capital Projects

Schematic plans and other related project documents will be prepared and submitted in accordance with N.J.A.C. 6A:26-5.3.

A project cost estimate on a form provided by the Commissioner of Education, a project schedule, a copy of the dated transmittal letter indicating project document submission to the County Superintendent and a copy of the transmittal letter indicating the date of plan submission to the local planning board (whenever the building footprint, volume, pedestrian or vehicular access are altered by the project) must be submitted to the Division of Facilities and Transportation.

The Director of the Office of Bilingual Education and Equity Issues must receive a completed OEEQ questionnaire, in accordance with Title 6 of the Civil Rights Act of 1964 (42 U.S.C. § 2000a et seq.), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794) and Title 2 of the Americans with Disabilities Act of 1990 (42 U.S.C. § 12101 et seq.), from the district and must make a positive recommendation in writing to the Division before schematic plans can be approved for any project that affects the capacity of individual buildings or their sending areas in the district.

In the case of an authority school facilities project, upon completion of detailed plans and specifications, the authority on behalf of the district will apply for final approval of the educational adequacy of the project in accordance with N.J.A.C.6A:26-5.4(a). In the case of a non-authority school facilities project or another capital project, upon the completion of final plans and specifications, the district will apply for final approval of the educational adequacy of the project in accordance with N.J.A.C. 6A:26-5.4(b).

The Division of Facilities and Transportation will collect fees for its reviews according to N.J.A.C. 6A:26-5.5.

### 7102 SITE SELECTION AND ACQUISITION

The District may need to select and acquire new sites for school district facilities. Site acquisition for school purposes and every acquisition of land will be made pursuant to N.J.A.C. 6A:26-3.13 and N.J.A.C. 6A:26-7.1 through 7.3.

A. Voter Approval

The district may obtain voter approval for funding of the acquisition of land prior to the Division of Facilities and Transportation approval of the purchase of land, but shall not take any action to acquire land prior to obtaining Division approval.

B. Submission to the Division of Facilities and Transportation

1. The district, or the authority on behalf of the district, shall submit the following information to the Division to obtain approval for the acquisition:
  - a. A written request for approval from the district, which shall include a statement, signed by the Board President and the chief school administrator, indicating the immediate and ultimate proposed uses of the site, in terms of building use, grade organization and potential maximum enrollment, and whether the land is, or will be, part of a school facilities project indicated in the district's LRFP:
  - b. Statement from a local or county water/sewerage agency certifying that:
    - (1) The land can be adequately provided with the necessary water for the proposed maximum enrollment;
    - (2) The land can be adequately provided with the necessary and acceptable sewerage disposal system for the proposed maximum enrollment; and
    - (3) Water and sewer infrastructure is, or is not, in place to service the site.
  - c. Statement from New Jersey Department of Environmental Protection or a licensed architect, engineer or professional planner, indicating whether:

- (1) The land is subject to regulation under wetlands, pinelands, or the waterfront development acts, the Greenacres Act, or other statutes, regulations or Executive Orders administered by agencies of state or federal government;
  - (2) If so subject, the steps necessary to obtain approval from such agencies, and adequate documentation to demonstrate to the Division that such approvals will be obtainable and not affect the adequacy of the site; and
  - (3) The land is in an area designated for growth under the New Jersey State Development and Redevelopment Plan.
- d. A statement from a New Jersey registered architect or licensed engineer indicating that the land to be acquired is suitable for the proposed use;
  - e. A completed plot plan of the land to be acquired showing topographical and contour lines, all adjacent properties and access roads. The acreage and dimensions of the tract proposed for acquisition shall be included as per the application of the standards for minimum acceptable school site sizes in C. below;
  - f. A map of the district showing the location of the land and the location of existing schools in the district;
  - g. A map showing the attendance area to be served by the school and the number of pupils who reside therein;
  - h. Data regarding the impact of the acquisition on racial balance within the district's public schools;
  - i. If existing buildings are located on the land to be acquired, the intended use and/or disposition of these buildings. Any building to be acquired and used must comply with the requirements of the Uniform Construction Code for educational occupancy, and the requirements of N.J.A.C. 6A:26-5.1 et seq. which apply to the construction of a new building;
  - j. Recommendations of the local planning board of the municipality in which the site is situated and which has an approved master plan, as required by N.J.S.A. 40:55D-31, 18A:18A-49 and 18A:18A-16;

- k. Prior approvals of other agencies, such as the New Jersey Departments of Agriculture and Environmental Protection and the Pinelands Commission, where such approval is reasonably obtainable prior to acquisition;
- l. Documentation that available data on soil conditions have been examined by the architect or engineer;
- m. Reports by the architect or engineer of actual soil test borings and percolation tests on any site located less than one mile from a landfill;
- n. A full, detailed appraisal of the market value of the property prepared by a licensed professional; and
- o. The recommendation of the County Superintendent of Schools based on the requirements specified in this subchapter.

### C. Size of School Sites

- 1. School site sizes shall be directly related to the acreage required for the structures and activities to be situated thereon. Except where specifically noted for multiple or shared use, the acreage shall be considered for single use.
- 2. All school sites require sufficient acreage for the following:
  - a. The placement of the school facility;
  - b. Expansion of the building to its maximum potential enrollment;
  - c. The placement of all other structures such as greenhouses, storage buildings, school bus maintenance buildings or garages and any other structure, above or below ground, which is to be placed thereon;
  - d. Multi-purpose physical education and recreation field(s) required to support the achievement of the Core Curriculum Content Standards as defined by the educational specifications under N.J.A.C. 6A:26-5.1 et seq.;
  - e. Disabled-accessible pedestrian walkways, roadways and parking areas on which people and vehicles access the building;

- f. Public and service access roads onto the site including, where warranted, a one-way school bus road of thirty foot width and a two-way road of thirty-six foot width; a school bus drop-off area; and eighteen foot wide posted fire lanes for fire apparatus; and
    - g. A thirty-foot wide access around the entire building.
- D. Land owned by the school district which does not meet the standards of N.J.A.C. 6A:26-7.1 may be supplemented by adjacent municipally owned land if such land is formally leased on a long-term basis to the district Board of Education for exclusive use during school hours.
- E. The approval of the Division shall remain effective for three years, after which time Division approval shall again be obtained prior to acquiring land.
- F. Approval for Acquisition of Existing Facilities
  - 1. If the district has an opportunity to acquire an existing facility through purchase, gift, lease or otherwise the district will comply with all procedures and rules pertaining to the appropriation and use of capital funds as required by N.J.S.A. 18A:20-4 and 18A:20-4.2 as per N.J.A.C. 6A:26-7.3.
  - 2. The district shall also have the facility approved in accordance with N.J.A.C. 6A:26-3 which applies to the acquisition of a school site and for the construction of a new facility.
  - 3. Off-site facilities which are to be procured for temporary, emergency use must comply with N.J.A.C. 6A:26-8, Substandard School Facilities.
- G. Districts Eligible for 100% State Support Only

The authority may acquire land on behalf of a district eligible for 100% State support of final eligible costs, for school facilities projects that are consistent with such district's approved LRFP. For such districts, the Department requires submission of all information set forth in N.J.A.C. 6A:26-7.1(b) to demonstrate compliance with these regulations. The authority may submit the required information on behalf of such districts.

N.J.A.C. 6A:26-3.13; 6A:26-7.1; 6A:26-7.2; 6A:26-7.3

Adopted: 17 December 2008

### 7130 SCHOOL CLOSING

The Board of Education recognizes its responsibility to provide a thorough and efficient program of free public education and appropriate facilities to house that program. The Board further recognizes that declining enrollments, diminished resources, district reorganization, or other good cause may require that the use of one or more district facilities for educational purposes be abandoned.

The Board will not commit itself to the closing of any school facility without first having collected and considered appropriate information regarding pupil enrollments, the educational adequacy of school facilities, relevant safety and traffic factors, district revenues, and alternative district organizational plans. The Board will invite citizen participation in the analysis of that information and the formulation of recommendations. Information on any proposed district reorganization will be disseminated to the public, and public response will be invited by all appropriate means.

The Board must receive a letter of approval from the Department of Education before making a final determination to close a school. To receive the letter of approval from the Department of Education, the Board must provide the Division of Facilities and Transportation and the County Superintendent of Schools assurances as required in N.J.A.C. 6A:26-7.5.

The proposed closing must be consistent with the district's approved LRFP, demonstrating that sufficient school building capacity exists to house district pupils following such closing for the succeeding five years. The use of substandard spaces in the remaining schools within the district must not result or increase from an overall facilities shortage caused by the school closing. The re-assignment of pupils to other schools in the district does not produce, sustain nor contribute to unlawful segregation, separation or isolation of pupil populations on the basis of race or national origin.

### 7230 GIFTS, GRANTS AND DONATIONS

The Board of Education accepts its responsibility to provide from public funds sufficient supplies and equipment for an effective instructional program. The Board recognizes, however, that from time to time individuals or organizations in the community may wish to contribute additional supplies or equipment to enhance or extend the instructional program.

The Board may accept by resolution duly passed at a public meeting any gift or grant of land, with or without improvement, and of money or other personal property, except that the Superintendent may accept on behalf of the Board any such gift less than \$500.00 in value. Grants of land are subject to the appropriate legal limitations and approvals.

The Board reserves the right to refuse to accept any gift that does not contribute toward the achievement of the goals of this district or any gift the ownership of which would tend to deplete the resources of the district. The Board shall not provide public moneys for the purchase of any school property on a matching fund basis.

Any gift accepted by the Board shall become the property of the Board, may not be returned without the approval of the Board, and shall be subject to the same controls and regulations as are other properties of the Board. The Board shall be responsible for the maintenance of any gift it accepts, subject to any joint agreement with another governmental body.

The Board will respect the intent of the donor in its use of a gift, but reserves the right to utilize any gift it accepts in the best interests of the pupils and the educational program of the district. In no case shall acceptance of a gift be considered to be an endorsement by the Board of a commercial product or business enterprise or institution of learning.

The Superintendent shall:

1. Counsel potential donors on the appropriateness of contemplated gifts and encourage such donors to choose as gifts supplies or equipment not likely to be purchased with public funds;
2. Encourage individuals and organizations considering a contribution to the schools to consult with the Principal or Superintendent before appropriating funds to that end;
3. Report to the Board all gifts that have been accepted on behalf of the Board;

4. Acknowledge the receipt of any gift accepted by the Board; and
5. Prepare fitting means for recognizing or memorializing gifts to the school district.

### Educational Foundation

An educational foundation shall be created for the purpose of soliciting and raising monetary gifts and donations for the school district. This foundation shall be governed by a Board of Directors that shall recommend expenditures of funds in educational areas not ordinarily covered by the school budget and in accordance with criteria in its bylaws. Members of the Board of Education and/or the administration (shall/shall not) serve on the Board of Directors of the educational foundation. Policies and regulations on gifts to the district shall apply to funds raised by the foundation.

Adopted: 17 December 2008

### 7243 SUPERVISION OF CONSTRUCTION

The Board of Education directs that the Superintendent be responsible for the supervision of all building construction in this district. Supervision shall include field inspection of the contractor's operations, administrative review of the activities of the architect relating to the construction, and any other construction matters relating to the interests of the school district.

The Superintendent shall report periodically to the Board that by his/her personal knowledge the work of the construction contractor and the architect is being performed in accordance with the plans, specifications, and contracts approved by the Board.

A change order involving additional cost will be submitted by the architect for Board review.

Upon completion of a building project and a final inspection of all its aspects by the architect, contractors, and school officials, a recommendation for acceptance shall be made to the Board by the architect.

N.J.S.A. 18A:18A-16; 18A:18A-43; 18A:18A-44

Adopted: 17 December 2008

### 7300 DISPOSITION OF PROPERTY

The Board of Education believes the efficient administration of the district requires the disposition of property and goods no longer necessary for school purposes. The Board directs the periodic review of all district property and authorizes the disposition by sale, donation, or discard of any property no longer required for the maintenance of the educational program or the efficient management of the school district. The disposition of any school property will be in accordance with this policy and applicable laws.

Real estate property will be disposed of by sale or otherwise, in accordance with N.J.S.A. 18A:20-5 and N.J.A.C. 6A:26-7.4. If an approved site is to be altered or disposed of through sale, transfer or exchange of all or part of the total acreage, including facilities, if applicable, a written request for approval of the disposal will be made to the Department of Education in accordance with the requirements of N.J.A.C. 6A:26-7.4 et seq. The Department of Education will notify the district of its approval or disapproval.

The Board may, by resolution and by sealed bid or public auction, authorize the sale of its personal property not needed for school purposes. If the estimated fair value of the property to be sold exceeds fifteen percent of the bid threshold in any one sale and it is neither livestock nor perishable goods, it shall be sold at public sale, together with a description of the items to be sold and the conditions of sale, shall be published once in an official newspaper. By resolution of the Board, the purchasing agent may include the sale of personal property no longer needed for school purposes as part of specifications to offset the price of a new purchase.

Personal property may be sold to the United States, the State of New Jersey, or to any body politic in the State of New Jersey, or any foreign nation which has diplomatic relations with these United States by private sale without advertising for bids.

Notwithstanding anything to the contrary in this policy, property acquired with federal funds for use in a federally funded program will be disposed of in accordance with applicable law and guidelines.

The Superintendent shall develop regulations for the disposition of district property that provide for the review of the continued usefulness of all property in conjunction with the periodic inventory of property; the recommendation for Board designation of property for sale, donation, or discard; and the disposition of property in a fair and open manner consistent with the public interest and applicable laws.

### 7410 MAINTENANCE AND REPAIR

The Board of Education recognizes that the fixed assets of this district represent a significant investment of this community; their maintenance is, therefore, of prime concern to the Board.

The Board will develop, approve, and implement a comprehensive maintenance plan in accordance with the requirements of N.J.A.C. 6A:26A-3.1 and 6A:26A-3.2. A “comprehensive maintenance plan” means a multi-year maintenance plan developed by a school district covering required maintenance activities for each school facility in the school district pursuant to N.J.A.C. 6A:26A-1.1 et seq.

Required maintenance activities, in accordance with N.J.A.C. 6A:26A-2.1, are those specific activities necessary for the purpose of keeping a school facility open and safe for the use or in its original condition, and for keeping its constituent building systems fully and efficiently functional and for keeping their warranties valid. The activities address interior and exterior conditions; include preventative and corrective measures; and prevent premature breakdown or failure of the school facility and its building systems.

Expenditures for required maintenance activities set forth in N.J.A.C. 6A:26A-2.1 shall be accounted for in accordance with the requirements of N.J.A.C. 6A:26A-2.2.

The required annual maintenance budget amount in the comprehensive maintenance plan shall be included in the district’s annual budget certified for taxes in accordance with the provisions of N.J.A.C. 6A:26A-4.1(a). The required annual maintenance budget amount shall be calculated and adjusted in accordance with the provisions of N.J.A.C. 6A:26A:4.1(b). The Executive County Superintendent, in accordance with the provisions of N.J.A.C. 6A:26A:4.1(c), may not approve the school district’s budget if the required annual maintenance budget is not included in the budget certified for taxes.

Maintenance and repair requests and repairs shall be processed in accordance with the procedures as outlined in Regulation 7410.

N.J.S.A. 18A:18A-43; 18A:21-1  
N.J.A.C. 6A:26A:-1.1 et seq.; 6A:23A-6.9

Adopted: 17 December 2008

### 7420 HYGIENIC MANAGEMENT

The Board of Education recognizes that the health and physical well-being of the pupils and staff of this district depend in large measure upon the cleanliness and sanitary management of the schools.

The Board directs that a program of hygienic management be instituted in the schools and explained annually to all staff members. Each school shall be inspected for cleanliness and sanitation by the Supervisor of Transportation and/or the School Business Administrator/Board Secretary not less than once each year.

The Board will cooperate with the local board of health in the sanitary inspection of the schools' toilets, washrooms, food vending machines, water supply, and sewage disposal systems.

The Superintendent shall prepare, in consultation with the school physician, regulations, first aid and emergency medical procedures that utilize universal precautions in the handling and disposal of blood and body fluids, whether or not pupils or staff members with HIV infection are present. School staff members and volunteers shall be provided the supplies for implementing the procedures. In particular, school nurses, custodians, and teachers shall be trained in proper handling procedures. These regulations and procedures will comply with the regulations of the State Department of Health and State Department of Labor (OSHA Standards for Occupational Exposure to Bloodborne Pathogens) and recommendations of the Centers for Disease Control and Prevention.

#### Bloodborne Pathogens

The Board recognizes that school employees may in the performance of their duties reasonably anticipate contact with human blood or other potentially infectious body fluids that may expose them to bloodborne pathogens such as Hepatitis B Virus (HBV) and Human Immunodeficiency Virus (HIV). In accordance with federal OSHA regulations, the Board will establish a written Exposure Control Plan designed to eliminate or minimize employee exposure to such infection. The plan shall list all job classifications and tasks in which exposure occurs; describe and require the implementation of workplace controls to eliminate or minimize exposure; require the provision of hepatitis B vaccination to employees who have occupational exposure; and require the provision of a training program for employees who have occupational exposure. The plan shall be updated annually and as required to include new or revised employees positions with occupational exposure. A copy of the plan shall be made accessible to employees.

### Disposal of Medical Waste

The Superintendent shall prepare, in consultation with the school physician, a medical waste disposal program to ensure all medical waste, including needles and sharps, are disposed of in accordance with the rules and regulations of the New Jersey Department of Health.

### Chemical Hygiene

The Board also recognizes that certain school employees who work in laboratories may be exposed to hazardous chemicals in the course of their duties. In accordance with federal OSHA regulations, the Board will establish practices that are capable of protecting employees from health hazards presented by hazardous chemicals used in the workplace. The plan shall contain the locations of hazardous chemicals and shall enunciate a plan capable of protecting employees from associated health hazards and keeping exposure of employees below specified limits. The Chemical Hygiene Plan shall be readily available to employees and shall contain at least the following elements:

1. Standard operating procedures for using hazardous chemicals in laboratory work;
2. Criteria that the Board will use to determine and implement control measures to reduce employee exposure;
3. The requirement that fume hoods and other protective equipment are functioning properly and that measures are taken to ensure adequate performance of such equipment;
4. Provision for employee information and training;
5. The circumstances under which a particular laboratory operation, procedure or activity shall require prior approval from the Supervisor of Buildings, Grounds and Transportation before implementation;
6. Provisions for medical consultation;
7. Designation of personnel responsible for implementation of the chemical hygiene plan; and
8. Provisions for additional employee protection for work with particularly hazardous substances.

Hygienic Management

The Board directs that the program of chemical hygiene be implemented by the Chemical Hygiene Officer. The Supervisor of Buildings, Grounds and Transportation will serve as Chemical Hygiene Officer for all schools in the district and shall be responsible for the examination of all school facilities to determine where hazardous chemicals are used and to ensure compliance of all school facilities with the Chemical Hygiene Plan.

The Superintendent shall develop and supervise a program for the cleanliness and sanitary management of the school buildings, school grounds, and school equipment pursuant to statute, rules of the State Board of Education, and regulations of the State Board of Health.

The day to day monitoring of the cleanliness of each school building shall be the responsibility of the Building Principal.

### 7421 INDOOR AIR QUALITY STANDARDS

The Board of Education will provide air quality for school employees in school buildings that meet the standards established by the New Jersey Department of Labor pursuant to N.J.A.C. 12:100-13.

The Board will designate the Supervisor of Buildings, Grounds and Transportation as the individual, who is responsible to assure compliance with New Jersey Department of Labor standards. The designated person will assure that preventative maintenance programs for heating, ventilating and air conditioning (HVAC) systems are implemented and documented and that general and local exhaust ventilation is used for employees working with equipment or products that could reasonably be expected to result in hazardous chemicals or particulate exposure. The designated person shall check to make sure HVAC systems are working properly when the building temperatures are outside of the range of 68 to 79 degrees Fahrenheit and make sure buildings without mechanical ventilation have operable windows, doors, vents, stacks and other portals designated or used for natural ventilation are operational. The designated person will also promptly investigate all employee complaints of signs or symptoms that may be associated with building-related illnesses.

The Board will make sure air quality will be maintained at acceptable standards during renovation and remodeling that results in the diffusion of dust, stone and other small particles, toxic gases or other harmful substances in quantities hazardous to health. The designated person will notify employees at least twenty-four hours in advance, or promptly in emergency situations of work to be performed on the building that may induce air contaminants into their work area.

The designated person will respond to a complaint received by the Department of Labor within fifteen working days of receipt of the complaint.

### 7422 SCHOOL INTEGRATED PEST MANAGEMENT PLAN

The New Jersey School Integrated Pest Management Act of 2002 requires school districts to implement a school integrated pest management policy that includes an Integrated Pest Management Plan. In accordance with the requirements of the Act, the Board shall ensure implementation of Integrated Pest Management (IPM) procedures to control pests and minimize exposure of children, faculty, and staff to pesticides. These procedures shall be applicable to all school property in the Tewksbury Township School District.

#### IPM Coordinator (IPMC)

The Supervisor of Buildings, Grounds and Transportation shall be designated as the district's Integrated Pest Management Coordinator (IPMC) and is responsible for the implementation of the school integrated pest management policy.

#### Integrated Pest Management Procedures in Schools

Implementation of Integrated Pest Management (IPM) procedures will determine when to control pests and whether to use mechanical, physical, cultural, biological, or chemical methods. Applying IPM principles prevents unacceptable levels of pest damage by the most economical means and with the least possible hazard to people, property, and the environment.

The Integrated Pest Management Coordinator (IPMC) shall consider the full range of management options, including no action at all. Non-pesticide pest management methods are to be used whenever possible. The choice of using a pesticide shall be based on a review of all other available options and a determination that these options are not effective or not reasonable. When it is determined that a pesticide must be used, low impact pesticides and methods are preferred and shall be considered for use first.

#### Development of IPM plans

The Superintendent, in collaboration with the school Building Principal(s) and the IPMC, shall be responsible for the development of the IPM Plan for the school district. The school district's Integrated Pest Management (IPM) Plan is a blueprint of how the school district will manage pests through IPM methods. The school district's IPM Plan will state the school district's goals regarding the management of pests and the use of pesticides for all school district property. The

Plan will reflect the school district's site-specific needs and a description of how each component of the school district's Integrated Pest Management Policy and Regulation will be implemented for all school property.

### Education/Training

The school community will be educated about potential pest problems and IPM methods used to achieve the pest management objectives.

The IPMC, other school staff, and pesticide applicators involved with implementation of the district's IPM policy will be trained in appropriate components of IPM as it pertains to the school environment.

Students and parents/legal guardians will be provided information on this policy and instructed on how they can contribute to the success of the IPM program.

### Recordkeeping

Records of pesticide use shall be maintained on site to meet the requirements of the State regulatory agency and the Board.

Records shall also include, but are not limited to, pest surveillance data sheets and other non-pesticide pest management methods and practices utilized.

### Notification/Posting

The Building Principal of each school, working with the IPMC, is responsible for timely notification to students, parents or legal guardians and the school staff of pesticide treatments pursuant to the School Integrated Pest Management Act.

### Re-entry

Re-entry to a pesticide treated area shall conform to the requirements of the School Integrated Pest Management Act.

### Pesticide Applicators

The IPMC shall ensure that applicators follow State regulations, including licensing requirements and label precautions, and must comply with all components of the School Integrated Pest Management Policy.

### 7430 SCHOOL SAFETY

The Board of Education recognizes that it is required by law to take measures for the safety of pupils and district employees.

The Board shall provide, publish, and post rules for safety and the prevention of accidents; instruct pupils in safety and accident prevention; provide protective devices where they are required by law for the safety of pupils and employees; and provide suitable and safe equipment where such equipment is necessary for the conduct of the educational program and the operation of the schools.

The Superintendent shall prepare regulations governing school safety and the prevention of accidents and fire that include as a minimum the requirements of law and the applicable rules of various departments of state government. Such regulations shall provide procedures and precautions for the safety of pupils in school, employees in the performance of their duties, users of school vehicles, pupils in transit to and from school, injured pupils and employees, and visitors to the school. Safety regulations shall be promulgated to all school employees and shall be reviewed and evaluated annually. The Superintendent is directed to instruct teaching staff members in proper safety precautions.

### 7432 EYE PROTECTION

The Board of Education directs the rigorous implementation and enforcement of eye safety practices for pupils, staff members, and visitors exposed to conditions potentially hazardous to the eyes in the instructional program of this district.

The Superintendent shall be responsible for the continual monitoring of the school program, including, but not limited to, all vocational education, industrial arts education, science education, technology education and arts education, for conditions under which pupils, staff members, or visitors are exposed to a process or activity that might have a tendency to cause damage to the eyes.

Each pupil, staff member, and visitor exposed to a condition identified as hazardous to the eyes must wear an eye protective device appropriate to the activity and certified to meet the standards established by the State Board of Education, the American National Standard Practice for Occupational and Educational Eye and Face Protection, ANSI Z87.1-1979, and American National Standard Practice for the Safe Use of Lasers, ANSI Z136.1-1986 and the New Jersey Administrative Code. The eye protective device shall be supplied by the Board, except that the pupil, staff member, or visitor may wear personal eye wear that is appropriate to the activity and certified, in writing, by a licensed optician or other qualified licensed eye professional to meet or exceed those standards. District owned eye protective devices shall be inspected regularly by the appropriate staff member, and defective or poorly fitting devices shall be returned to the Principal for repair or discard. Any shared eye protective devices shall be disinfected between uses by the method prescribed by the school medical inspector.

Each classroom, shop, laboratory, and other area of the school in which pupils or staff members are exposed to caustic materials that can cause damage to the eyes shall be equipped with an emergency eye wash fountain in accordance with standards established by the Department of Education.

The Building Principal shall ensure that each area in the school identified as housing an activity hazardous to the eyes shall be posted with conspicuous signs that warn participants that an appropriate eye protective device must be worn during the activity. Staff members of such activities are responsible for instructing pupils in appropriate eye safety practices and for serving as exemplary models in the implementation of such practices.

The Board authorizes each staff member responsible for an activity or process hazardous to the eyes to compile and maintain, for the duration of the course of study, a list of pupils in the course who wear contact lenses.

A pupil who refuses or persistently neglects to wear an eye protective device when required to do so or fails to observe established eye safety practices shall be dismissed from the day's class by his/her teacher. Any such dismissal from class will be considered to be an absence, in accordance with Board policy on pupil attendance, and an accumulation of such absences may result in loss of course credit.

A staff member who refuses or persistently neglects to wear an eye protective device when required to do so or fails to observe established eye safety practices may be disciplined for insubordination for failing to obey the rules established by this Board. The proper implementation of eye protection practices shall be a criterion in the evaluation of every staff member required to observe such practices.

A visitor to the schools who refuses or persistently neglects to wear an eye protective device when required to do so or fails to observe established eye safety practices may be requested to leave the school premises.

The Superintendent shall promulgate regulations to implement this policy that conform to rules of the State Board of Education and shall provide in-service training to staff members whose instructional duties include activities hazardous to the eyes. The Superintendent shall report annually to the Board on the implementation of the eye protection program and the eye injuries, if any, occurring in the course of the instructional program.

### 7433 HAZARDOUS SUBSTANCES

The Board of Education will enforce the law governing hazardous substances in the school district. Employees of this district shall be informed of the hazards related to the handling of certain substances and trained to work with hazardous substances.

Hazardous substance means any substance or substance in a mixture included on the hazardous substance list developed by the New Jersey Department of Health and Senior Services. Hazardous substances shall not include:

1. Any article containing a hazardous substance if the hazardous substance is present in a solid form which does not pose any acute or chronic health hazard to any person exposed to it;
2. Any hazardous substance constituting less than one percent of a mixture unless the hazardous substance is present in an aggregate amount of five hundred pounds or more in a container in a public or private school or child care center building;
3. Any hazardous substance which is a special health hazardous substance constituting less than the threshold percentage established by the Department of Health and Senior Services pursuant to P.L.1983, c.315 (C.34:5A-1 et seq.), for that special health hazardous substance when present in a mixture;
4. Any hazardous substance present in the same form and concentration as a product packaged for distribution and use by consumers and which is not a product intended primarily for commercial use;
5. Any fuel in a motor vehicle;
6. Tobacco or tobacco products;
7. Wood or wood products;
8. Foods, drugs, or cosmetics;
9. Hazardous substances which are an integral part of a building's structure or furnishings;

10. Products which are personal property and are intended for personal use; and
11. Any substance used in the routine maintenance of a public or private school or child care center building or its grounds, any substance used in a classroom science laboratory, any substance used in a school occupational training facility, including laboratories and shops, and any substance used in the normal operation of the classrooms or administrative offices of a public or private school or child care center, including any substance used in the heating or cooling of the school or child care center.

No person shall use or allow the use of any hazardous substance in or on any building or grounds used as a public school or child care center when children are expected to be present.

The Superintendent may delegate authority for the maintenance of hazardous substances and for the development of safety and training standards for the handling of such substances to a safety officer.

The Supervisor of Buildings, Grounds and Transportation shall conduct periodic audits of hazardous substances in use in the district, ascertain that such substances are being handled in accordance with appropriate safety requirements, and determine that the employees who are required to handle hazardous substances are properly equipped to do so.

The Supervisor of Buildings, Grounds and Transportation shall inform the Superintendent of all hazardous substances in use in the district, the purpose of each, and the precautions required for each. The Superintendent shall take such action as may be necessary and feasible to minimize the use of hazardous substances in the district.

The Superintendent shall report periodically to the Board on hazardous substances in district use and the purpose of each.

### 7434 SMOKING ON SCHOOL GROUNDS

The Board of Education believes that the right of persons to smoke must be balanced against the right of nonsmokers to breath air untainted by tobacco smoke.

For purposes of this policy, “smoking” means the burning of a lighted cigar, cigarette, pipe, or any other matter or substance that contains tobacco.

For the purposes of this policy, “school grounds” means and includes land, portions of land, structures, buildings, and vehicles when used for the provision of academic or extracurricular programs by the district or community provider and structures that support these buildings, including, but not limited to administrative buildings, kitchens, maintenance shops, and garages. “School grounds” also includes other facilities as defined in N.J.A.C. 6A:26-1.2, playgrounds, and other recreational places owned by the local municipalities, private entities or other individuals during those times when the school district has exclusive use of a portion of such land.

In accordance with law, the Board prohibits smoking at all times anywhere on school grounds, except as part of classroom instruction or a theatrical production.

Notwithstanding any provision of this policy, smoking by pupils is governed by Policy No. 5533.

Notice that smoking is prohibited on school grounds as defined above will be posted at each public entrance in accordance with law. The Principal of each school building is authorized to report violations, in accordance with law, to the Board of Health. Failure to report violations may subject the Principal to fines in accordance with N.J.S.A. 26:3D-20. The Building Principal will not be liable for a fine if he/she has taken reasonable steps to enforce the prohibition on smoking in school buildings or on school grounds. Pupils and district employees who violate the provisions of this policy shall be subject to appropriate disciplinary measures.

### 7435 ALCOHOLIC BEVERAGES ON SCHOOL PREMISES

The knowing possession, without legal authority, or knowing consumption of any alcoholic beverage by any person on school premises is a disorderly persons offense.

The Board of Education prohibits the possession and consumption of an alcoholic beverage, without the express written permission of the Superintendent, by any person in any school building and on school property or at any school sponsored activity.

The Board will report to law enforcement officials and prosecute as appropriate any person who violates law and this policy, except that any pupil who possesses or uses or is under the influence of alcohol on school premises or at any school sponsored activity will be treated in accordance with law and Policy Nos. 3218, 4218, and 5530.

School district employees who violate this policy or are present on school premises or at any school sponsored activity while under the influence of alcohol will be subject to discipline, which may include dismissal or certification of tenure charges, as appropriate.

### 7436 DRUG FREE WORKPLACE

The Board of Education prohibits the unlawful manufacture, distribution, dispensing, possession or use of any controlled dangerous substance by any person in any school building, on school grounds, or during any activity or event sponsored by the Board.

Every employee of this district must, as a condition of employment, agree to be bound by this policy. An employee who violates the prohibitions or reporting requirements of this policy will be subject to discipline, which may include dismissal, or certification of tenure charges, as appropriate. An employee whose involvement with drugs results in a conviction for a crime of the third degree or above or for an offense touching his/her position will be deemed to have forfeited his/her public employment, pursuant to N.J.S.A. 2C:51-2.

An employee who is convicted of a drug related offense must report the conviction to the Superintendent within five days of its occurrence. The Superintendent will, within ten days of the date on which notice of the conviction is received, report any such conviction resulting from drug use in the workplace to any federal agency from which the district has received funds through a grant.

The Board directs the Superintendent to establish and maintain a program to:

1. Alert employees as to the dangers of drug abuse in the workplace;
2. Inform employees of the prohibitions against drugs set forth in this policy;
3. Inform employees of available drug counseling, rehabilitation, and assistance programs; and
4. Warn employees of the penalties that may be imposed for violations of prohibitions set forth in this policy.

The Board will report to law enforcement officials and prosecute as appropriate any employee or visitor who violates the prohibitions of this policy. A pupil or employee who violates this policy will be treated in accordance with law and Policy Nos. 3218, 4218, and 5530.

### 7440 SECURITY OF SCHOOL PREMISES

The Board of Education believes that the buildings and facilities of this district represent a substantial community investment. The Board directs the development and implementation of a plan for district security to protect that investment.

The district security program will include the maintenance of facilities secure against unwelcome intrusion; protection against fire hazards and faulty equipment; and the observation of safe practices in the use of electrical, plumbing, and heating equipment. The Board directs close cooperation of district officials with local law enforcement officers, fire fighters, the sheriff's office, and insurance company inspectors.

Personal access to school buildings and grounds outside the hours school is in session shall be limited to personnel whose employment requires their presence in the facility. An adequate key control system will be established to limit building access to authorized personnel and guard against the potential of intrusion by unauthorized persons who have obtained keys improperly.

Building records and funds shall be kept in a safe place and under lock and key as appropriate and necessary.

Protective devices designed to be used as safeguards against illegal entry and vandalism may be installed when appropriate. The Board may approve the employment of security guards in situations in which special risks are involved.

7441 ELECTRONIC SURVEILLANCE IN SCHOOL BUILDINGS  
AND ON SCHOOL GROUNDS

The Board of Education authorizes the use of electronic surveillance systems in school buildings and on school grounds to enhance the safety and security for school district staff, pupils, community members, and other building occupants and to protect the school district's buildings and grounds.

The content produced by the surveillance system under certain circumstances may be considered a student record, in which it will be subject to the Board of Education policy and regulations regarding confidential student records. If the content of the surveillance system becomes the subject of a disciplinary proceeding, it shall be treated like other evidence in the proceeding, and the district declares such use to be a legitimate educational interest.

The following statement shall be posted in a prominent, public place in buildings and on school grounds where electronic surveillance equipment may be used:

The Board of Education authorizes the use of electronic surveillance monitoring devices in school buildings and on school grounds. Therefore, all school buildings and school grounds within this school district may be monitored using such devices in accordance with Board Policy.

In addition to posting, the district shall notify school staff members, parent(s) or legal guardian(s), and pupils that electronic surveillance may be used in school buildings and on school grounds through publication in student and staff handbooks, school calendars, notice sent home with pupils, or any other effective means to publish the district's use of electronic surveillance equipment in school buildings and on school grounds.

### 7450 PROPERTY INVENTORY

As steward of this district's school property, the Board of Education recognizes that efficient management and the replacement of lost, damaged, or stolen property depend upon an accurate inventory and properly maintained property records.

The Board shall conduct a complete inventory by physical count of all district-owned equipment and supplies through a perpetual inventory.

For purposes of this policy, "equipment" means a unit of furniture or furnishings, an instrument, a machine, an apparatus, or a set of articles that retains its shape and appearance with use, is nonconsumable, costs at least \$500 as a single unit, and does not lose its identity when incorporated into a more complex unit.

The School Business Administrator/Board Secretary shall ensure that inventories are systematically and accurately recorded and that property records of equipment are adjusted annually. Major items of equipment shall be subject to annual spot check inventory to determine loss, mislocation, or depreciation; any major loss shall be reported to the Board. Property records of consumable supplies shall be maintained on a continuous inventory basis.

The School Business Administrator/Board Secretary shall maintain a system of property records that show, as appropriate to the item recorded, description and identification, manufacturer, year of purchase, initial cost, location, condition and depreciation, and current evaluation in conformity with insurance requirements.

## 7460 ENERGY CONSERVATION

The Board of Education is committed to the conservation of natural as well as fiscal resources and directs the Superintendent to develop and implement regulations for the conservation of energy in the management of school buildings.

The Board further directs all employees of this district to cooperate in the program of energy conservation.

Adopted: 17 December 2008

### 7480 MOTOR VEHICLES ON SCHOOL PROPERTY

The school grounds owned and maintained by this Board of Education are subject to damage by motor vehicles. Accordingly, the Board has provided areas, adjacent to the school building, in which employees of the district and visitors to the school may drive and park motor vehicles.

The Board prohibits the use or presence of any motor vehicle, including motorcycles, all-terrain vehicles, snow mobiles, and mopeds, for any purpose on any part of the school property owned by the Board other than the driving and parking areas established by the Board except as expressly permitted by the Building Principal.

The Board directs the Superintendent to have conspicuous notices posted forbidding the parking of motor vehicles in undesignated areas of the school grounds.

The Board reserves the right to prosecute in a court of competent jurisdiction any person whose violation of this rule results in damage to the property of this district.

N.J.S.A. 2C:17-3  
N.J.S.A. 18A:37-3

Adopted: 17 December 2008

### 7490 ANIMALS ON SCHOOL PROPERTY

The Board of Education will make every reasonable effort to maintain school grounds in a condition appropriate for the activities of school pupils.

Pet animals are not permitted on school district grounds, except by the express permission of the Building Principal. Without such permission, a pet owner who brings or permits his/her animal on school grounds has committed an act of trespass. If an animal is found running at large on school grounds, its owner will be deemed to have permitted the animal to enter school property.

The Board directs the Building Principal to give notice regarding the prohibition of pets by posting appropriate signs on school property. The Principal shall report to the appropriate municipal authorities any pet that runs at large on school property and any pet owner whose animal is present on school property is in violation of this policy.

Adopted: 17 December 2008

### 7510 USE OF SCHOOL FACILITIES

The district facilities belong to the community, which paid for them for the primary purpose of offering a full educational program for its children.

To promote a closer relationship between the school and the community, the policy of the Board of Education shall be to grant and encourage use of school facilities to responsible individuals and community groups for civic, educational, entertainment, informational, and recreational purposes. Authorization for use of school facilities shall not be considered endorsement or approval of the group or organization or the purposes they may represent.

The educational program of the district will receive preference for utilization of school facilities over all other activities and organizations.

The Board will permit the use of school facilities when such permission has been requested in writing and has been approved by the Superintendent for:

1. Uses and groups directly related to the school and the operations of the school;
2. Uses and organizations indirectly related to the school;
3. Departments or agencies of the municipal government;
4. Other governmental agencies; and
5. Religious groups and community organizations formed for charitable, civic or educational purposes.

Written application to use facilities shall be made in advance of the planned use to the Superintendent, or his designee, who will be responsible for maintaining an accurate calendar of all uses of school facilities, notifying appropriate school personnel and the Board of dates and events, and reporting to the Board periodically.

Sponsoring individuals or organizations will provide sufficient competent adult or special supervision. The degree of supervision and clean-up procedures will be agreed upon at the time of authorization for use. Alcoholic beverages are not permitted in or on school facilities or property at any time, and smoking anywhere in the building is prohibited. The illegal possession of, use of, or sale of controlled dangerous substances on or in school property is also prohibited. The use of alcoholic beverages or use of or sale of drugs will result in loss of privilege to use the school facilities and prosecution.

Use of School Facilities

Applicant groups or organizations which are not covered or cannot reasonably be covered by the school district's insurance policy, may be required, in the reasonable discretion of the Superintendent, to provide a certificate of insurance showing liability coverage of a reasonable amount from a carrier licensed by New Jersey to provide such coverage. It is not the purpose of the Board to use insurance requirements as a bar or deterrent of the Board to the use of its facilities.

Fund raising activities of non-profit organizations may be charged a fee for the use of the facility which will be paid in advance. Custodial services will be billed.

The Superintendent may develop additional regulations for use of school facilities. This policy and additional regulations pertaining to the facilities will be distributed, may be included, for instance, in the school handbook, and shall be distributed to every applicant for use of school facilities. No person or organization shall be granted permission to use school facilities who has not agreed in writing to be bound thereby.

Evening activities will terminate at about 10:30 p.m. so that the facilities will be vacated no later than 11:00 p.m. unless other arrangements have been approved prior to use.

### Use of Outside Facilities

The Board of Education encourages the use of the district's outside facilities by individuals and groups, with the understanding that groups must have the approval of the Superintendent. Use of outside facilities shall be subject to all requirements outlined in this policy.

No individual or group is allowed to bring their motor vehicle on the district's grass or field areas without permission.

It is recognized that the use of bicycles, in a reckless and negligent fashion, ramps, jumps, etc., present a danger to the participants as well as a potential liability to the Board of Education. Any use of a bicycle in a reckless and careless fashion is prohibited.

The use of skateboards on school property constitutes a clear and apparent danger to the participants as well as a potential liability to the Board of Education. Therefore skateboarding on school district property is strictly prohibited.

The use of any outside school facility shall be curtailed by dusk unless expressed written permission has been previously arranged with the Superintendent

Adopted: 17 December 2008

### 7513 RECREATIONAL USE OF PLAYGROUNDS

The Board of Education requires that the playground of the school affords residents with a recreational area when school is not in session. The Board reserves the right to determine, in the interest of the safety of district residents and the integrity of the school facility, the uses to which the playground may be put and the hours when it may be used.

The Board will publish rules of conduct, which shall govern all persons who use the facilities of this district. Pupils and employees of this district who violate those rules will be subject to discipline. The Board directs that any other person who violates a rule of this Board be requested to leave the school premises.

Because of its potential for hazard, no object that is powered by fuel or battery shall be brought onto the school grounds for any purpose that is primarily recreational without the express permission of the Principal. Such objects include, but are not limited to, mini-bikes, mopeds, motorized model airplanes, and rockets.

N.J.S.A. 18A:20-17 et seq.

Adopted: 17 December 2008

### 7520 LOAN OF SCHOOL EQUIPMENT

The Board of Education believes that district owned equipment is a valuable resource that may be loaned for community use under certain conditions and when such use does not interfere with the educational program of the school.

The Board may lend specific items of equipment on the written request of the user when approval has been granted by Superintendent and when such equipment is unobtainable elsewhere.

School equipment may be removed from school property by pupils or staff members only when such equipment is necessary to accomplish a task arising from their school or job responsibilities. The consent of the Superintendent is required for such removal. The removal of school equipment from school property by pupils or employees for personal use is prohibited.

The user of school owned equipment shall be fully liable for any damage or loss occurring to the equipment during the period of its use, regardless of any assignment of negligence, and shall be responsible for its safe return. When equipment authorized for loan requires the services of a qualified operator, the user shall employ the services of a person designated by this district and shall pay such costs as may have been set for such services.

Adopted: 17 December 2008

### 7610 VANDALISM

The Board of Education believes that all school district property should be respected and all persons who use or have access to school district property should respect such property and take pride in the institutions of this community and the schools of this district.

Any person who purposely or knowingly damages school district property or damages school district property recklessly or negligently in the employment of fire, explosives or another dangerous means listed in accordance with N.J.S.A. 2C:17-2 or purposely or recklessly tampers with the tangible property of the school district so as to endanger school district property shall be reported to the appropriate law enforcement agency. Where the damage to district property is more than minimal or has been caused by a pupil or a minor not a pupil of this district, the Board will hold liable for the amount of the damage the parent(s) or legal guardian(s) having legal custody and control of the minor responsible for the damage.

A person convicted of an offense that involves an act of graffiti will be required to reimburse the school district the cost of damages and may be required to perform community service, which may include removing the graffiti from the property, in accordance with the law. In addition, the courts may suspend or postpone driving privileges of any person, at least thirteen and under eighteen years of age, if convicted of an act of graffiti.

A person who purposely defaces or damages district property with any symbol that exposes persons to violence, contempt, or hatred on the basis of race, color, creed, religion, national origin, ancestry, age, marital status, affectational or sexual orientation or sex, social or economic status, or disability is guilty of a crime and shall be reported to appropriate law enforcement authorities. The Board may also report to the appropriate law enforcement agencies any person whose vandalism of school property is serious or chronic.

The Superintendent shall develop regulations to implement this policy and to protect textbooks, school equipment, and school facilities from undue wear, damage, or loss.

### 7650 SCHOOL VEHICLE ASSIGNMENT, USE, TRACKING, MAINTENANCE, AND ACCOUNTING

The Board of Education adopts this Policy concerning the assignment, use, tracking, maintenance, and accounting of school district vehicles in accordance with the provisions of N.J.A.C. 6A:23A-6.11 and 6A:23A-6.12. For the purposes of this Policy, a “school district vehicle” means a vehicle purchased, leased, leased-purchased, or acquired without cost by gift, donation, or other method by the school district regardless of funding source.

School district vehicle assignment and use shall be in compliance with N.J.A.C. 6A:23A-6.12 and in accordance with OMB Circular 08-16-ADM or any superseding circulars. The Board of Education, upon the recommendation of the Superintendent, may authorize, at its discretion, by an affirmative vote of the Board’s full membership, the lease, lease-purchase, or purchase and assignment of school district vehicles for the conduct of official school district business.

The vehicles may be assigned either to individuals or to units within the school district for pool use according to classifications as outlined in N.J.A.C. 6A:23A-6.12(b). No individual assignment shall be made for the primary purpose of commuting. Vehicle use logs shall be maintained for all individual and pool assignments in order to accurately record all usage of each vehicle, including the driver, mileage, and starting and destination points. All changes to vehicle assignment, whether pool or individual, shall require prior written approval of the Superintendent and the authorization of an affirmative majority vote of the full Board.

A school district vehicle shall be used primarily for business purposes, however, incidental and reasonable personal use is permitted.

If a school district vehicle is misused the driver's driving privileges for school district vehicles shall be suspended or revoked, and additional disciplinary action shall be taken as appropriate. The Board shall establish and implement a policy for progressive, uniform, and mandatory disciplinary actions to be applied as necessary in the event it is determined a staff member misused a school vehicle.
