HERE FOR YOU

School Age Child Care

HUNTERDON COUNTY YMCA

We have worked closely with the school district and we are able to provide care at Tewksbury School for the upcoming school year.

We have been running emergency care for essential workers since May in our child care center and we will continue to run safe, well supervised programs in each of the schools where we provide before and after care. We follow all DCF guidelines for the care of children in licensed programs, which includes cleaning and disinfecting rules, grouping of children, screening procedures, rules for activities and outdoor play.

We will supervise/assist your child's online learning time during full day care and still provide the fun activities we always have!

Register Now! Space is limited due to grouping restrictions and will remain so for the remainder of the school year or until the restrictions are lifted.
